The Coming Up Taller Awards recognize and support outstanding projects that develop and provide educational content for K-12 students. Project applicants are encouraged to focus on the development of STEM programs, community entrepreneurship, personal finance, and financial literacy. The Secondary and Two-Year Postsecondary Agriculture Education Challenge Grants Program is designed to maintain and expand domestic and international markets. It is also dependent on the development of new products, production practices, and agricultural workforce. Projects supported by this program will:

1. Promote and strengthen secondary education and two-year postsecondary education in agriscience and agribusiness in order to help ensure the existence in the United States of a qualified workforce to serve the food and agricultural sciences system.
2. Promote complementary and synergistic linkages among secondary, two-year postsecondary, and higher education programs in the food and agricultural sciences in order to advance excellence in education and encourage more young Americans to pursue and complete a baccalaureate or higher degree in the food and agricultural sciences.

**2007 Coming Up Taller Award**

Funding Source President’s Committee on the Arts and Humanities
Funds Available $150,000 ($10,000 per award)
Deadline January 31, 2007
The success of agricultural and rural economies is increasingly dependent on the development of new products, production practices, and employment to enhance marketing efficiency and the competitiveness of agricultural producers. This program accepts a wide range of applications.

**Higher Education Challenge Grants Program**

**Funding Source** U.S. Department of Agriculture; Cooperative State Research, Education, and Extension Service (CSREES)

**Funds Available** $5.5 million

**Deadline** February 1, 2007

**Overview** CSREES announces the availability of grant funds to stimulate and enable colleges and universities to provide the quality of education necessary to produce baccalaureate or higher degree level graduates capable of strengthening the nation's food and agricultural scientific and professional workforce. Projects supported by this program will:

1. Address a state, regional, national or international educational need.
2. Involve a creative or non-traditional approach toward addressing that need that can serve as a model to others.
3. Encourage and facilitate better working relationships in the university science and education community, as well as between universities and the private sector, to enhance program quality and supplement available resources.
4. Result in benefits that will likely transcend the project duration and USDA support.

**Mary Reynolds Babcock Foundation Grants**

**Funding Source** Mary Reynolds Babcock Foundation (private foundation)

**Funds Available** $2 million

**Deadline** February 1, 2007

**Overview** Applicants must be not-for-profit organizations located in the Southeastern United States. The foundation supports:

1. Grassroots groups and networks in low-wealth communities that are poised to expand their scale of impact.
2. Statewide or regional organizations and networks that are achieving large-scale impact.
3. Both new approaches and proven strategies that link together grassroots and larger organizations.

Competitive applicants will have clear, promising strategies for moving people and places out of poverty, including systems or policy change at the local, state or regional level. All applicants must have meaningful connections with low-wealth people and communities.

**Federal-State Marketing Improvement Program**

**Funding Source** Agricultural Marketing Service

**Funds Available** $1.3 million

**Deadline** February 12, 2007

**Overview** This program provides matching funds on a competitive basis to State departments of agriculture, State Experiment Stations and other similar State agencies for applied research projects that address barriers, challenges and opportunities in the marketing, transportation and distribution of U.S. food and agricultural products. Proposals may deal with any stage of the marketing chain including direct, wholesale and retail. Proposals may involve small, medium or large-scale agricultural entities but should potentially benefit multiple producers or agribusinesses. Of particular interest are proposals that reflect a collaborative approach between the States, academia, the farm sector and other appropriate entities and stakeholders. The average award is $50,000.

### AmeriCorps National Grants

**Funding Source** Corporation for National and Community Service

**Funds Available** $88 million

**Deadline** February 15, 2007

**Overview**

The Corporation's mission is to improve lives, strengthen communities and foster civic engagement through service and volunteering. Special consideration will be given to projects that address one or a combination of four strategic initiatives that meet critical needs of our nation, achieve national service goals and address community problems.

1. Mobilizing more volunteers
2. Ensuring a brighter future for all of America's youth
3. Engaging students in communities
4. Harnessing baby boomers' experience

The Corporation awards these grants to organizations that operate in more than one state. Professional Corps programs place members as teachers, nurses and other health care providers, police officers, early childhood development staff, engineers or other professionals providing service in communities with an inadequate number of such professionals.

### My Hometown Helper Grants

**Funding Source** General Mills, Hamburger Helper

**Funds Available** Up to $15,000 per project

**Deadline** Continuous until May 2007

**Overview**

Individuals from communities and organizations across America are asked to submit a written essay describing how the grant would help improve their community project. Applicants can request a one-time award of between $500 and $15,000 during any single month. All requests must be sponsored by a municipal or civic organization or public school. Examples of possible community projects include computers for the local library, clean-up projects and training for volunteer firefighters. Funds will be awarded based on the merit of the project, including its impact on and support within the community.
