## Industry and occupation

# Bubble chart interpretation

### Mature Industries

Six industry clusters in the Greater Wabash Region are in the Maturing stage: Transportation Equipment Mfg., Energy- Fossil and Renewable, Manufacturing Supercluster, Transportation and Logistics, Fabricated Metal Product Mfg., and Machinery Mfg. These industries are relatively concentrated, but their growth is trending downward. Overall, this is likely a reflection on high turnover in heavy manufacturing jobs in the region. It is worth noting, however, that the Greater Wabash Region may find it worthwhile to invest in efforts to shore up the concentration of these industries.

### Transforming Industries

Transforming clusters capture the mix of industries that are experiencing relative decline and limited export capability. In the Greater Wabash Region, Biomedical/Biotechnical, Glass and Ceramics, Chemicals, Printing and Publishing, Defense and Security, and Education and Knowledge Creation are all Transforming. Any amount of growth in these industries would require relatively large investments.

### Star Industries

Star industry clusters are highly concentrated, exporting and still experiencing growth in the region. The most highly concentrated of the Star industry clusters in the Greater Wabash Region is Agribusiness, Food Production and Technology. Its location quotient is 3.31, indicating that the cluster is nearly 3 times more concentrated in the region compared to the U.S. Other strong clusters of note in the region include Advanced Materials and Mining.

### Emerging Industries

Industry clusters that may be poised for future growth are classified as “Emerging.” There are six Emerging clusters in the Greater Wabash Region: Forest and Wood Products, Business and Financial Services, Computer and Electronic Product Mfg.; Arts, Ent., Rec., and Visitor Industries; IT and Telecommunication, and Apparel and Textiles clusters.
