

Stronger Economies Together

WHAT IS SET?

Stronger Economies Together (SET) enables communities and counties in rural America to work together in developing and implementing an economic development blueprint for their multi-county region that strategically builds on the current and emerging economic strengths of that region.

Creating, attracting and retaining jobs as a single rural county, in isolation from other nearby counties, is becoming increasingly ineffective. In today's global marketplace, economic development progress is more likely to be realized when rural and metro counties work together as a region to assess, design, and implement plans that build on their assets and comparative economic strengths.

Launched in 2010 by USDA Rural Development and the nation's four Regional Rural Development Centers and their land-grant university partners, the exciting initiative is now in place in nearly 40 regions in 19 states. Regional teams in seven additional states are joining Phase III in 2012.

SET BENEFITS

- More than 35 hours of valuable, step-by-step training to guide production of a practical and viable regional economic development plan
- In-depth data tailored to the region, describing its current and emerging clusters, comparative economic advantages, and detailed demographic and socio-economic information
- Tools to uncover local assets and resources that can advance the region's economic strategies
- Up to 40 hours of technical assistance from Extension educators, USDA RD state staff and the Regional Rural Development Centers to guide the implementation of regional goals and strategies
- Opportunity to apply for a special assistance grant to support more advanced regional data analyses or connect with those with special expertise needed to reach your regional goals
- Chance to share information and gather ideas from other SET regions nationwide
