

SOUTHERN RURAL DEVELOPMENT CENTER

Rural Communities Thriving Together

ANNUAL REPORT 2019

Letter from the Director

The team here at the Southern Rural Development Center (SRDC) is pleased to present this 2019 annual report and 2020 calendar and to share with you some of the accomplishments of the Center and our 30 Land-Grant University (LGU) partners across 13 southern states and territories. Two new members of the SRDC staff are Emily Green and Laura Narmour. Emily is our Grants and Contracts Specialist and is a recent graduate of Mississippi State University in International Business. Laura joins us as an Office Associate with over 15 years experience in the health care sector. These two, along with Rachel Welborn, Katherine Spiering, Grace Langford, and Russ Garner constitute one of the best staffs I have been associated with in my 33 years in academia. This energetic and enthusiastic group of individuals are a personification of the SRDC's mission and vision.

On these pages you'll find information about several major projects that were initiated or continued in 2019. For instance, the interest surrounding heirs' property is spreading and is increasingly being recognized as an impediment to community development. The SRDC is working with Extension and research partners in the South to explore regional responses to this growing issue. Also, the 2020 Census will be released on April 1, 2020, and an accurate count is important to every community and person in the nation. Together with our Extension partners, the SRDC is exploring ways to increase the response rate in hard to count areas which include much of the rural South. Another major effort in 2019 was a cooperative arrangement with the Office of Partnerships and Public Engagement at the United State Department of Agriculture (USDA) to encourage the formation and support of local prosperity councils to address pressing economic and community issues. And Rachel Welborn continues to coordinate "Coming Together for Racial Understanding," a national program that addresses a sensitive and enduring topic. Other projects include work on digital literacy with the National Digital Education Extension Team (NDEET), retail workforce development (CREATE BRIDGES), and local foods (SERA 47).

As you can see, the SRDC is engaged in an array of efforts as directed by our Board of Directors and Technical Operation and Advisory Committee. With their direction and the support of USDA's National Institute for Food and Agriculture and multiple other partners, we continue to leverage resources with our LGUs to provide assistance to rural communities in America. Thank you.

Sincerely,

Steve C. Turner

MISSION

The Southern Rural Development Center seeks to strengthen the capacity of the region's 30 Land-Grant Institutions to address critical contemporary rural development issues impacting the well-being of people and communities in the rural South.

Priorities:

- Develop Pathways to Resilient Communities
- Build Strategic Partnerships
- Mobilize Resources around Emerging Issues and Opportunities

To view all the Land-Grant Institutions that we serve, please visit: srdc.msstate.edu/about/landgrant/

2019 SOUTHERN COMMUNITY DEVELOPMENT WEBINAR SERIES

In 2019, the Community Resource Development (CRD) specialists in the Southern Region continued their successful webinar series aimed at showcasing some of the best community development programs the region has to offer. In 2020, these will transition to periodic high-priority topic sessions.

COMING TOGETHER FOR RACIAL

UNDERSTANDING

OVERVIEW

Within the past two years, 26 states joined the Coming Together for Racial Understanding initiative. The purpose of the training is to build capacity within Cooperative Extension Service (CES) to help communities engage in civil dialogues around racial issues.

BUILDING CAPACITY AT HOME

Following the train-the-trainer workshop, the process for expanding capacity is two-fold:

- 1. Engage professionals within the CES system in the home state in dialogues
- 2. Host a dialogue in at least one community

HOW ADMINISTRATORS CAN SUPPORT THIS WORK

Provide time to other Extension employees to participate

Allow adequate resources to support efforts (funding, travel, materials)

Demonstrate support even in the face of dissention or risk

Actively communicate support for this work as a priority to Extension

Value efforts in promotion and tenure process

Participate in dialogues

PARTICIPATING STATES

CENSUS 2020

CENSUS DAY: APRIL 1, 2020 OFFERED ONLINE FOR THE 1ST TIME!

The Decennial Census, conducted since 1970, is required in the U.S. Constitution. This short form questionnaire is now being offered online, by phone, mail, and in-person. Census data is used for political apportionment, allocating government funds, defining rural-urban status, and to help inform decision making.

SOUTHERN COMMUNITY DEVELOPMENT IMPACT STORIES

ENTREPRENEURSHIP

Mississippi State University helps businesses with online marketing tool and has helped increase sales through the Bricks-To-Clicks™ Extension Program.

Kentucky State University helped to support small businesses through free workshop for minority, underserved, and underrepresented business owners.

University of Georgia & Fort Valley State University delivered the USDA Small Business Innovation Research (SBIR) Workshop to raise awareness about the grant and its application process.

LEADERSHIP DEVELOPMENT

North Carolina A&T University's Community Voices program helps to develop leadership skills in areas such as housing, health, and economic development, with participants securing funding for their work.

Prairie View A&M University's Nonprofit Consortium helps nonprofits, collaborate, improve best practices, and build their capacity to grow through writing grants.

University of Arkansas Extension provides statewide ballot education to increase awareness of ballot initiatives through printed and online voter guides.

QUALITY OF LIFE

Oklahoma State University partners with local entities to hold community meetings in towns affected by the opioid crisis.

Virginia Cooperative Extension is fighting the opioid crisis by delivering prevention programming through the PROSPER program.

University of Puerto Rico was able to aid those affected by Hurricanes Irma and Marie through their Emergency Plan courses.

University of Kentucky compiled the results of statewide community assessments to find local priorities which included economic development and substance abuse.

Texas A&M University is building a local food center that will serve rural areas though education and entrepreneur development.

BUILDING CAPACITY IN AGRICULTURE

Tuskegee University supports farmers by strengthening technical/managerial knowledge and raising awareness about financial wellbeing, marketing, comparative cluster farming, and more.

University of Tennessee focuses on projects improving community viability and rural competitiveness including rural broadband, risk mitigation strategies, an Affordability Index, and market feasibility of hard cider production and sales.

North Carolina State University's Farmerworker Health and Safety Program engages farmworkers, farm operators, and farm labor contractors with interactive training.

COMMUNITY PROSPERITY SUMMITS

Throughout the summer of 2019, in partnership with USDA's Office of Partnership and Public Engagement (OPPE), the four Regional Rural Development Centers hosted four Community Prosperity Summits around the country. These summits brought together community partners from across the nation to build capacity to address the USDA Agriculture and Rural Prosperity Priorities.

AGRICULTURE & RURAL PROSPERITY PRIORITIES

- Fostering progress toward the Agriculture
 & Rural Prosperity Priorities
- Connecting USDA & other federal programs of value to agriculture & rural communities
- Demonstrating how to identify & approach relevant partners
- Modeling a planning process for helping participants work within local communities
- Developing & implementing Local Prosperity Councils

NATIONAL SUSTAINABILITY SUMMIT + **NATIONAL EXTENSION ENERGY SUMMIT**

SRDC served on the planning team for the National Sustainability and National Extension Energy Joint Summit. Educators, researchers, students, community partners, and pollinators of change from across the country came together at this joint national conference in Tampa, Florida in April 2019. Participants learned about the latest sustainability and energy research, exchanged innovative programming strategies, updated their educational toolbox, and cultivated new communities of practice that expanded and strengthened collective impacts.

Leadership **SOUTHERN REGION** PROGRAM LEADERSHIP NETWORK

The mission of this group is to foster and strengthen Extension education programming throughout the southern region by promoting multi-state cooperation, anticipating emerging program issues and needs, and implementing action processes to address them in a timely manner.

Southern Region Program

Network

In August 2019, 248 participants representing state program leaders from eight committees, the Association of Extension Administrators (AEA), and the Association of Southern Region Extension Directors (ASRED) convened for joint regional planning and collaboration. The number of participants in each group are depicted below.

CREATE BRIDGES:

Celebrating REtail, Accommodations, Tourism and Entertainment by Building Rural Innovations and Developing Growth Economies

Through funding from Walmart, CREATE BRIDGES is an initiative to strengthen retail, accomodations, tourism, and entertainment industries which often make up a large portion of the jobs & businesses that drive rural economies. CREATE BRIDGES was designed to raise awareness of the important role these businesses play in the local economy, determine challenges and assets impacting those businesses, and develop and implement strategies to strengthen these sectors.

The Business Retention & Expansion process was used to engage CREATE sector businesses to assess their strengths/challenges and inform strategies to address issues that impact business and workforce well-being.

4-H TECH CHANGEMAKERS INITIATIVE

According to the Federal Communications Commission's 2018 Broadband Deployment report, over 24 million people in the U.S. do not have access to broadband Internet (25 Mbps download/3 Mbps upload). The National Digital Extension Education Team (NDEET) in partnership with the National 4-H Council, Microsoft, and Georgia 4-H trained youth and adult leaders to address the digital divide across the U.S. through the 4-H Tech Changemakers program. This includes working with 4-H youth and educators, broadband service providers, community members, civic leaders, and Microsoft to help people thrive in a digital economy and benefit from high-speed connectivity.

GEORGIA

PROGRAM GOALS

- Empower community members to adopt and use technology to improve their opportunities and outcomes through the use of broadband Internet. Community members will gain technology awareness and skills related to what broadband Internet can provide.
- 2. Raise the visibility of the partnership and mission as 4-H Tech Changemakers. Engage with lawmakers, media, and other stakeholders. Teen leaders will be trained as spokespeople to lift up and expand youth voice in this critical conversation.
- 3. Infuse positive youth development approaches in relation to citizenship and technology skills development throughout the life cycle of the project. Teen leaders will successfully engage their local community to address their digital literacy issues.

NDEET & SRDC'S ROLE

- Writing and adapting curriculum
- Conducting regional trainings
- Coaching and supporting state teams

HEIRS' PROPERTY

The USDA defines heirs' property as land that has been passed down informally from generation to generation, in most cases, without a will. African American communities in the southern Black Belt have been particularly affected, although similar situations exist in the Mississippi Delta, in white communities in Appalachia, with Native Americans living on tribal lands, and in the Hispanic Colonias in South Texas. SRDC is partnering with CES, researchers, and non-profits in the South to explore opportunities for a regional capacity building response. The steps taken to better understand these important issues so far are illustrated below along with 2020 events planned.

BONNIE TEATER EARLY CAREER ACHIEVEMENT AWARD

Bonnie Teater is a special individual to friends of the Southern Rural Development Center. For 30 years, she provided valuable support and day-to-day assistance to the Center as a member of its staff. She served as an inspiration to all because of the dedication she brought to her work and her passion for the rural development research and Extension outreach mission of the region's Land-Grant Universities. She currently is enjoying retirement in Kentucky.

The Early Career Achievement Award is awarded on odd number years and honors the work of "rising star" who has already achieved great things in his/her early career in community development. Below is this year's recipient.

Ramona Madhosingh-Hector

Ramona is a Regional Specialized Urban Sustainability Agent at the University of Florida, Institute of Food and Agricultural Sciences (IFAS) in Pinellas County, Florida.

In Ramona's nine years of serving in this role, she has received more than 30 state and national awards and has also presented at nearly 100 conferences. Her determination to raise the status of Community Resource Development (CRD) work across Florida

Extension and the state of Florida led her to launch a National Association of Community Development Extension Professionals state chapter.

She has been a dominant player in developing and launching a new UF/IFAS Extension Program: CIVIC, Community Voices, Informed Choices. This provides a platform for deliberative dialogue and feedback through a two-way exchange versus a one-way program delivery style. Last year, she traveled to Maynooth, Ireland with her team to the 2018 World Development Conference. There, they shared program successes and learned from community development colleagues from around the world.

Another one of Ramona's achievements includes a program called Sustainability Connections which is a community film series. Also, in the field of sustainability, Ramona was an integral part of the planning team for the 2019 National Sustainability and National Extension Energy Joint Summit in Tampa, Florida.
